VEDARA MEDICAL – SAFETY AND TRUST

NEW CANON IN AESTHETIC COSMETOLOGY

Vedara Medical is a Polish company that has developed an innovative method of mixing low molecular weight acids AHA / BHA / PHA for an individual approach to the treatment of various skin problems. High quality, professional formulations that guarantee efficient, safe operation with low material costs. The formulas are based on innovative and modern technologies.

Vedara Medical is a brand that guarantees a high quality, modern approach to therapy. The formula of each product was developed by our technologists with the support of specialists from other fields: aesthetic medicine, dermatology, cosmetology. We strive for consumer confidence and guarantee expert advice and training.

The main concept of the brand is the ability to mix all preparations, creating individual beauty cocktails and personalized acid therapies for each client. Thanks to this approach, the results of **Vedara Medical** procedures are very visible, and the therapy is quick and painless.

A MODERN APPROACH TO SKIN CARE

Modern cosmetology focuses on the stimulation and proper maintenance of skin physiology using AHA / BHA / PHA acids. Treatment should be preceded by a thorough analysis of the problems and condition of the skin, the correct collection of anamnesis. During Vedara Medical therapy, acids deeply stimulate the skin without damaging the epidermis (no burns). This method is much safer and provides a fast, impressive results without the need for a rehabilitation period.

Thanks to this technique, acid cocktails can be used all-season without the risk of complications and pigmentation problems.

Skin stimulation with the Vedara Medical method has a stronger effect on the skin than burn procedures. Therefore, any therapy is painless and the effects are achieved in record time after 1-4 procedures!

ADVANTAGES OF VEDARA MEDICAL THERAPY

- strong stimulation of the skin without damaging the epidermis;
- the possibility of tailoring individual therapy for each patient;
- maximally increased active substances;
- high-tech products – cosmeceuticals, biomimetics and acid concentrates;
- high safety of therapy;
- visible long-term effects;
- low cost of procedures;
- alternative to invasive methods of aesthetic medicine;
- prolongation of the effects of treatment with various methods of aesthetic medicine.

INDIVIDUAL ACID COCKTAIL

We select acids and mix an individual cocktail according to the needs of the patient, which ensures complete personalization of the procedure and an individual approach.

The cocktail will be based on one of three bases: Active peeling mask, AHA base 16% or cocktail AHA & vitamins, which we will combine with pure acid solutions – concentrate of glycolic acid, mandelic acid, phytic acid, lactic acid, solution Jessner, azelaic acid, lactobionic solution and active vitamin C powder with arbutin.

VEDARA MEDICAL PROCEDURE CONSTRUCTION METHODOLOGY

1. It is important to follow the correct order to the procedure. The first procedure is preparatory and includes the application of a preliminary peeling – an active peeling mask. This allows us to assess the skin's sensitivity to highly active ingredients.
2. Preparation of an individual cocktail based on AHA 16% base or on an active peeling mask or cocktail of AHA & vitamins. This gives unlimited possibilities for creating an individual cocktail for the treatment of all skin types and ages.
3. Diagnostics of the reaction and improvement of skin texture after the first procedure, on the basis of which the course of further therapy is determined.

INDICATIONS FOR ACID TREATMENT:

- pigmentation, uneven skin tone;
- acne, post-acne;
- inflammatory elements of a hormonal nature;
- redness and rosacea;
- fine wrinkles, folds and grooves;
- change in the oval shape of the face, decrease in skin elasticity;
- grey, tired skin (“smoker’s skin”);
- enlarged pores;
- complete skin resurfacing;
- normalization of the thickness of the epidermis.

CONTRAINDICATIONS FOR ACID TREATMENT

- active viral infection (herpes, warts) or bacterial infection;
- treatment with isotretinoin;
- active inflammatory skin diseases (psoriasis, seborrheic dermatitis, atopic dermatitis, phlegmon);
- facial surgery;
- allergy to product ingredients;
- pregnancy and breastfeeding;
- use of drugs with derivatives of vitamins and acids;
- lack of cooperation on the part of the client (for example, unrealistic expectations);
- other contraindications when using AHA / BHA / PHA acids.

PROCEDURE PROTOCOL – COMPILATION OF INDIVIDUAL AHA COCKTAILS

- 1. MAKEUP REMOVAL:** cleansing and degreasing the skin with Lightening Cleansing Mousse M100. Apply to skin and rinse thoroughly with cool water.
- 2. PREPARATION OF ACID COCKTAIL:** to 1 ml of AHA 16% Base add 5-20 drops of different AHA suitable for your skin type. Apply the prepared cocktail for 5-12 minutes and rinse with cool water.
- 3. SOOTHING MASK:** after removing the peeling, apply an Extra Calming Mask M104 to the skin. Place damp cotton napkins on top of it for 15-20 minutes.
- 4. MOISTURIZER:** apply 4-6 drops of Hyaluronic Acid M007 concentrate to the skin.
- 5. SERUM:** apply 1-2 drops of Concentrate Vit. C-VC 20% M4009 or 1-2 drops of Retinol H10 1% M4005.
- 6. PHOTO PROTECTION:** apply protective day cream SPF50/SPF30 from the Vedara Medical line.
- 7. HOME CARE:** during AHA therapy, home care must be prescribed.

PROCEDURE PROTOCOL – COLD ATRAUMATIC CLEANING FOR ALL SKIN TYPES

A modern method of cleansing all skin types, especially problem skin. Thanks to the natural form of loosening the epidermis, it does not heat the skin or damage the intercellular spaces, which makes the procedure painless and completely safe. The procedure is especially recommended for people with severe seborrhea, acne, after dermatological treatment, people with capillary skin, sensitive and allergic.

- 1. MAKEUP REMOVAL:** cleansing and degreasing the skin with Lightening Cleansing Mousse M100. Apply to skin and rinse thoroughly with cool water.
- 2. TONIZATION:** to prepare the tonic, dissolve 1/4 teaspoon of Dead Sea Minerals M222 in 100 ml of mineral water and tonize the skin.
- 3. DEEP HYDRATION MASK (loosening of intercellular space):** Flower Mask – natural hydration M220. Prepare 3 strips of cosmetic foil. Apply 2-3 ml of Flower Mask to a face. Place strips of foil on the mask to prevent evaporation and drying out of the mask. Leave for 15 minutes and cleanse the skin (if using ultrasound, keep the mask on the skin 10 min).
- 4. DEEP CLEANING:** remove the film strip, remove excess mask and clean the skin. The procedure time is not limited. If during cleansing of the skin or after puncturing the subcutaneous inflammation with a needle, inflammation occurs, you can place a mineral crystal in this place. It will have an antiseptic effect and will soothe and prolong inflammation within 5-10 minutes.
- 5. ANTISEPTIC PEELING:** it is necessary to do peeling after cleansing the skin – a combination of Flower Mask and Dead Sea Minerals. Apply and distribute about 1.5 ml on 4 areas of the face (forehead, nose, cheeks and chin) of the Flower Mask on the face, then sprinkle with mineral crystals and massage gently for 1-3 minutes. Rinse off with damp cotton pads.
- 6. DISINFECTION:** anti-acne powder with propolis M221. After peeling, sprinkle your face a little with antiseptic powder and massage dry or with D'arsonval (on a small discharge) until completely absorbed. Do not rinse off.
- 7. ANTI-ACNE MASK:** apply the ProCALMIN Cream Mask M4224 in combination with the Astringent mask for oily, acne-prone skin – mix 1 ml of the ProCALMIN cream mask with 1 ml of the Astringent Mask M4228 – for 10 minutes. Rinse off.
- 8. SOOTHING MASK:** apply ProCALMIN Cream Mask M4224 for 10-15 min and rinse off.
- 9. SPF PROTECTION:** during the day at any time of the year! Apply Protective Cream SPF50 with highlighter M109 to the entire face. In the evening: apply ProCALMIN Cream Mask and massage into the skin.

PROCEDURE PROTOCOL – RETINOL PEEL 4%

Dry skin – pigmentation, thin, capillary, sensitive, oily sensitive, seborrheic skin

4 steps – exclude step 2 (Pre-Peel).

Oily skin – acne, pimples, subcutaneous rashes, thick skin, insensitive

5 steps.

1. CLEANSING/MAKE-UP REMOVER (ALSO WATER REPELLENT): apply 2 portions of Whitening Mousse M100 to a damp face and neck, gently massaging for 1 minute and rinse off.
2. PRE-PEEL: Cocktail AHA and Vitamins M4120 – apply for 3 minutes, then rinse with water.
3. RETINOL PEELING: using a brush, apply Retinol-Peel M888 to the face for 20-30 minutes, avoiding the eye and lip area. Apply a thin layer of Retinol-Peel to the neck for 4-5 minutes. Then rinse gently with cool water.
4. SUMMARY: apply Pure Aloe Gel M4140 and massage into the skin.
5. SPF PROTECTION: on the day: apply any protective SPF30-50 cream from the Vedara Medical line. At night: apply Revitalizing Day/Night Cream M4121.

ATTENTION! After therapy with Retinol Peel 4%, home care is required: use Pure Aloe Vera Gel M140, use yourself and under any protective cream SPF30-50 from the Vedara Medical line during the day and under the revival cream, Revitalizing Day/Night Cream M121 at night. To maintain the effect, use Cream Retinol 0.3% M880 at night.

CATALOG OF PRODUCTS
Vedara Medical

CLEANSING / TONING

Lightening cleansing mousse, pH 3.5

The gentle biofoam thoroughly cleanses the skin, leaving it smooth and radiant. Contains green tea extract, which is indicated for the care of oily skin with acne, as well as dry and sensitive skin prone to irritation and vasodilation. It has a calming effect on burns, regenerates, prevents the development of inflammation and normalizes the functioning of the sebaceous glands, and also neutralizes free radicals.

Does not contain sulfates. Due to the content of natural emulsifiers, biofoam does not destroy the lipid barrier of the skin. Natural plant extracts moisturize and soothe skin, leaving a feeling of freshness. Salicylic acid content of 1% reduces inflammation and restores the physiological pH of the skin.

Benefits:

- cleanses the skin from impurities;
- brightens, refreshes, soothes the skin;
- reduces inflammation;
- lowers skin pH.

How to use: press on dispenser pump twice to draw sufficient biofoam and apply to the skin massaging until makeup dissolves. Wash off with plenty of water.

Active ingredients: *disodium cocoyl glutamate, sodium lauryl glucose carboxylate, lauryl glucoside, coconut glucoside, glyceryl oleate, sea water, camellia sinensis leaf extract, glycerin, sodium cocoyl hydrolyzed wheat protein, sorbic acid.*

200 ml / CODE: M100

AHA Toner 8%, pH 3.5

Toner based on alpha hydroxy acids (AHA fruit acids) with exfoliating and stimulating cell renewal effect. Combined with the soothing aloe juice, the toner whitens and regenerates the skin. With regular use, it smooths fine wrinkles, softens and evens out skin tone. The extract from the flowers of the hundred-petaled rose has antiseptic, anti-inflammatory effects and strengthens the blood vessels. Cucumber extract contains antioxidants, protects and nourishes the skin.

The product is ideal for all skin types. Perfectly prepares the skin for the subsequent stages of daily care and is recommended for home use after chemical peels.

Benefits:

- accelerates skin regeneration;
- brightens age spots;
- refreshes and moisturizes the skin;
- increases skin elasticity.

How to use: use before active procedures and as home care to lower the pH of the skin. Apply to a cotton pad and wipe your face. Home care: use every morning and evening.

Active ingredients: glycolic acid, cucumber fruit extract, lactic acid, rosa centifolia flower water, propanediol, sorbitol, PEG-7 glyceryl cocoate, allantoin, urea, serine, glycine, glucose, aloe barbadensis leaf juice powder, sodium lactate, sodium hydroxide, benzoic acid, dehydroacetate, hexylcinnamal, linalool, citronellol, geraniol, limonene, benzyl salicylate.

250 ml / CODE: M111

Dead Sea Minerals with Flower Oils Toner/Peeling/Mask

Natural minerals from the Dead Sea soaked in flower oils to prepare a tonic, peeling (in combination with the Flower Mask), cavitation solution and a spot anti-acne mask while cleansing the skin. It has a strong cleansing effect and reduces skin inflammation, has an antiseptic effect, whitens blackheads and evens out the skin tone.

The perfect product for all skin types. Minerals cause osmotic pressure on the skin, resulting in strong detoxification and cleansing of the skin from the inside, as well as normalization of the functioning of the sebaceous glands. Natural oils nourish and protect the skin against external irritations, deodorize and refresh the skin.

Benefits:

- tones the skin by lowering the pH to 3,5;
- has an astringent and antiseptic effect on the skin;
- cleanses and brightens the epidermis;
- gently removes dead cells, accelerating skin regeneration.

How to use: Tonic: dissolve 0.5 ml of minerals in 50 ml of water. Peeling: mix 1 ml of the floral mask with a small pinch of minerals directly onto the skin. Mask: apply a few grains of minerals to the cleansed pimple for 5-10 minutes, then wash off with water.

Active ingredients: sea salt, lauryl glycol ether, hydrogenated castor oil, tocopherol acetate, dicapryl ether, basil oil, citronnello, linalool, geraniol, limonene, jojoba seed oil, red sparrow extract.

125 ml / CODE: M222

Cocktail AHA & Vitamins

Multifunctional acid-vitamin cocktail with rejuvenating, regenerating, brightening effects. Gel-like preparation based on extracts of cranberry, blueberry, lactic acid. Enriched with polysaccharides such as hyaluronic acid, sugarcane and maple extract. Contains moisturizing minerals that promote epidermal regeneration while minimizing acid-related tingling. The preparation contains the physiological form of vitamin C, which stimulates collagen synthesis and rejuvenates the skin.

The preparation has the maximum concentration of AHA acids for self-use as a ready-to-use cocktail. It is used to gently renew the stratum corneum, cleanse and even out skin tone. This speeds up the process of cell renewal and also promotes the penetration of active ingredients. Has a pronounced antibacterial effect, narrows enlarged pores, regulates the sebaceous glands.

Another application: the basis for creating strong acidic cocktails in anti-wrinkle treatments – complex rejuvenating, in whitening – to eliminate age spots and whiten them, as well as for problem and vascular skin. A special blend of minerals – magnesium, potassium and amino acids with an extract of red *Lithospermum Erythrorhizon* root extract provides a unique soothing effect that increases the skin's resistance.

150 ml / CODE: M4120

Has a multifunctional effect:

- anti-aging – stimulates collagen synthesis, activates the proliferation of keratinocytes and fibroblasts, improves skin tone and elasticity;
- against acne – has a pronounced antibacterial effect, narrows enlarged pores, regulates the work of the sebaceous glands;
- brightens and exfoliates – thanks to the action of natural extracts and AHA acids;
- reduces redness and blemishes, strengthens blood vessels;
- accelerates the process of cell renewal;
- actively moisturizes the skin.

Method of application: apply 2 ml of the preparation on the face and massage in circular motions for 1-3 minutes. Leave the preparation on the skin for 10-15 minutes. To enhance the effect, you can add a little powder of vitamin C or a few drops of the selected acids, the exposure time is 7-10 minutes. Then rinse thoroughly with water. At home: as an independent peeling (in pure form without adding acids), use no more than 1-2 times a week. The cocktail may cause temporary redness of the skin.

Active ingredients: lactic acid, glycolic acid, cranberry fruit extract, blueberry fruit extract, sugarcane extract, sodium PCA, sugar maple extract, sodium coconut amino acids, sarcosin, lemon fruit extract, orange fruit extract, jojoba seed oil, niacinamide, urea, inositol, potassium aspartate, magnesium aspartate, sodium hyaluronate, fructose, lithospermum erythrorhizon root extract.

30 ml / CODE: M120

Active peeling mask pH 3.5

Unique youth mask with triple effect:

1. Lifting and rejuvenation – smooths skin and even skin tone, before an event or a party;
2. As a basis for the preparation of individual acid cocktails;
3. Massage active agent – stimulation, whitening and nourishment of the skin.

Has an innovative composition that contains valuable acai berry extract, rich in physiological form of vitamin C, 10% pure lactic acid, youth vitamins A, E, C, B, shea butter, allantoin, antioxidants and salicylic acid. Contains a large dose of moisturizers, incl. urea, which deeply moisturizes and regenerates the skin.

The peeling mask is recommended for all skin types, especially sensitive skin with rosacea. Reduces wrinkles, brightens age spots, tightens pores, actively regenerates and nourishes, gives the skin a radiant and youthful appearance. Just a few minutes after the first use, you can see the amazing effects of the mask.

Regular use of the peeling mask significantly improves the appearance of the skin and is completely safe, thanks to the use of only mild and hypoallergenic ingredients.

The mask can be successfully applied to all skin types – even the most sensitive.

All thanks to the use of unique methods of obtaining plant extracts and the corresponding form of the product, rich in active ingredients.

200 ml / CODE: M105

Correct composition active ingredients mean that the product takes care of mature skin – a few minutes after use, the skin becomes radiant and wrinkles are significantly reduced.

Thanks to light exfoliation, the peeling mask perfectly normalizes problem skin. It unclogs pores, has anti-inflammatory properties and regulates sebum secretion, leaving skin smooth, matte and refined. The complex of youthful vitamins contained in plant extracts holistically stimulates the skin, which, in combination with natural plant oils, makes the mask an ideal regenerating, rejuvenating and toning agent.

The peeling mask can also be used as a base for preparing customized acid cocktails for sensitive skin.

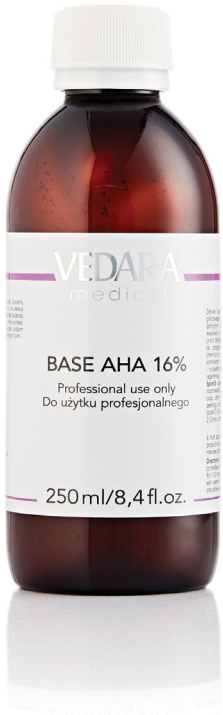

Benefits:

- smoothes the skin, evens out its tone and whitens;
- normalizes sebum secretion and prevents the appearance of acne;
- reduces wrinkles, refreshes and prevents aging;
- strengthens the walls of blood vessels.

How to use: Mask: apply a thin layer, avoiding the eye area. Leave it on for 10-15 minutes and then wash off with water. Massage: you can massage with a mask by adding 1-2 drops of the appropriate Vedara Medical serum to the preparation. Base for acidic cocktails: add 5-20 drops of the selected acids to 1 ml of the mask, mix thoroughly and apply to cleansed skin, rinse off after 5-10 minutes.

Active ingredients: *lactic acid, shea butter, caprylic / capric triglyceride, carnauba wax, beeswax, paullinia cupana seed extract, papaya fruit extract, pineapple fruit extract, blueberry fruit extract, orange fruit extract, lemon fruit extract, sugar maple extract, lithospermum erythrorhizon root extract.*

Base AHA 16%, pH 3.5

A base having a gel consistency and a pH 3.5 with AHA concentration of 16% (glycolic and lactic). Ready-to-use solution for use as unique cocktails with acids and vitamin C powder. Glycolic and lactic acid loosen the binding substances between the cells (the *stratum corneum*), facilitating exfoliation.

The addition of gluconolactone provides a strong antioxidant and moisturizing effect. Aloe extract accelerates regeneration and hydration, stimulates skin immunology. Its high potency makes this cosmeceutical one of the leading products for the pre-preparation of the skin for acid therapy.

Benefits:

- promotes skin stimulation and softening of the hard stratum corneum (also post-acne scars);
- supports the exfoliation of dead skin;
- helps the penetration of moisturizing substances from cosmetics applied later;
- brightens, refreshes the skin and improves its appearance.

Method of application: Peeling: apply 2 ml of ANA 16% base to cleansed facial skin. Wash off after 5-10 minutes. Personal shake base: add 5-20 drops of the selected acids to 1 ml of base AHA 16% to create a personalized cocktail. Mix thoroughly and apply to cleansed skin bypassing the eye area, rinse off after 5-10 minutes.

Active ingredients: lactic acid, glycolic acid, cucumber fruit extract, butcher's broom root extract, gluconolactone, aloe barbadensis leaf juice powder, sodium benzoate, sodium hyaluronate, sodium hydroxide, sodium, lactic acid, glycine, fructose, urea, niacinamide.

250 ml / CODE: M101

AHA / BHA / PHA ACIDS

Glycolic acid solution GS1 35%, pH 1.9 (2% salicylic acid)

For work with patients under the age of 30-35 years.

Glycolic acid solution GS2 56%, pH 1.9 (2% salicylic acid)

For working with patients over the age of 35.

Glycolic acid from Vedara Medical is a unique product with the highest pharmaceutical purity, thanks to which there is no risk of irritation or burning of the epidermis (in combination with Base). It is not toxic. Has no photosensitizing effect. Thus, it is also possible to use it even in summer. The acid easily and deeply penetrates into the stratum corneum, because it has very small molecules (below 0.45 nm). This property is used primarily to reduce age spots (hyperpigmentation) and to soften acne scars (post-acne).

Glycolic acid speeds up metabolism and stimulates keratinocytes, due to which the exfoliation effect appears gradually, up to 21-28 days after the procedure. Also, acid has strong moisturizing properties, so using it for peeling is especially recommended for people with dry skin, working in air-conditioned rooms.

Vedara Medical Glycolic Acid is ideal for therapy that prevents skin aging and reduces its symptoms. Immediate lifting effect and face contour enhancement. Supports the renewal and regeneration of the dermis by stimulating the activity of fibroblasts. Reuse of glycolic acid has a very beneficial effect on the dermis, leading to an increase in its thickness by 25% (the skin becomes thinner with age) without causing inflammation.

30 ml / CODE: M002

With prolonged use (6 months or more) of preparations containing glycolic acid, elastic fibers are restored, and skin elasticity improves. At the same time, there is an increase in the production of collagen fibers and mucopolysaccharides, which leads to a decrease in wrinkles and a long-term improvement in the biological and elastic properties of the skin.

Benefits:

- brightens age spots;
- reduces scars;
- normalizes keratosis;
- reduces fine and deep wrinkles – the effect of rejuvenation.

How to use: add the required amount (1-10 drops) to the selected Base, creating a personalized acidic cocktail. Apply the prepared cocktail to the face, avoiding the eye area. Leave the preparation for 2-10 minutes, depending on the sensitivity of the skin and reaction, and then rinse with cool water.

Active ingredients: *glycolic acid, salicylic acid, sodium hydroxide.*

The feeling of tightness, tension and discomfort on the skin after using glycolic acid is completely natural. This indicates strong stimulation of the skin and provides good healing effects in the shortest possible time.

30 ml / CODE: M011

Lactic solution LS1 45%, pH 1.9

Vedara Medical lactic acid has the highest pharmaceutical purity, so there is no risk of skin sensitization, and it is absolutely safe to use in cocktails. Has exfoliating properties. Moisturizes, maintains the physiological pH of the skin and attracts to the surface water molecules already present in the skin. Improves facial contours, smooths fine wrinkles. Ideal as a rejuvenator used for problems such as photoaging, also recommended for pigmented skin. Has a strong antioxidant effect.

Lactic acid is a natural ingredient to moisturize the epidermis. In the skin, lactic acid is metabolized to pyruvic acid, which provides a pronounced anti-inflammatory effect. Actively whitens the skin and stimulates its regeneration.

Benefits:

- deeply moisturizes;
- gives the skin a radiant effect;
- increases firmness and elasticity;
- affects collagen production.

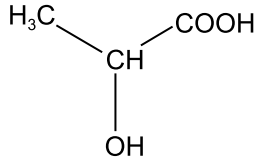

How to use: add the required number of drops of lactic acid to the Base, creating an individual acid cocktail. Apply the prepared cocktail to the face, avoiding the eye area. Leave the preparation for 2-10 minutes, depending on the sensitivity of the skin, and then rinse with cool water.

Active ingredients: *lactic acid, sodium hydroxide.*

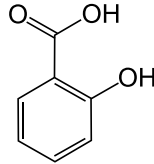

30 ml / CODE: M004

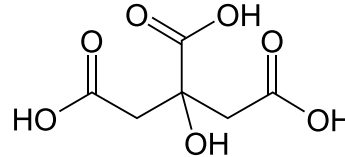

Jessner's solution 42% JS1, pH 1.9

1. Lactic acid

2. Salicylic acid

3. Citric acid

Vedara Medical's modified Jessner's Solution guarantees predictable results from the procedure as it does not carry the risk of skin burns. The solution works well even on young skin, because it is safe.

Jessner's solution contains three exfoliating agents that together have a far greater effect than some acids alone.

Vedara Medical offers the latest generation Jessner peeling with a modified composition, which contains salicylic acid, lactic acid and citric acid in equal proportions of 14%. The name of the solution comes from the name of the doctor who developed the composition and was the first to use this form of the product. Jessner's modified solution is devoid of the undesirable effects of salicylates. The advantage of this preparation is that only one concentration of acids is used, it bypasses the stage of neutralization.

Jessner's peeling is used both as a single preparation or as an important element of combination therapy in the preparation of individual acid cocktails.

30 ml / CODE: M003

Has a wide range of uses. Refreshes the skin, helps with acne treatment, reduces seborrhea, removes acne scars, age spots. Reduces wrinkles, perfectly cares for the skin – regenerates and thickens it. The procedure can be used to reduce the visibility of stretch marks. Peeling can be done on the décolleté and back (for acne).

The action of the individual components of Jessner’s solution:

- **Salicylic acid** reduces seborrhea by regulating the sebaceous glands and reduces skin imperfections such as acne, enlarged pores, pigmentation and fine lines.
- **Lactic acid** moisturizes the skin and increases its elasticity, stimulating the production of collagen and elastin, and also in the skin turns into pyruvic acid, which has an anti-inflammatory effect.
- **Citric acid** exfoliates and improves the tone of dry skin, smooths and brightens the skin, and also has an antibacterial effect. Tightens pores and restores healthy looking skin.

Benefits:

- reduces seborrhea;
- reduces pigmentation (especially post-inflammatory);
- reduces the symptoms of acne, post-acne;
- eliminates hormonal inflammatory changes.

How to use: add the right amount of acidic drops to the base, creating a personalized cocktail. Apply the prepared cocktail to the face, avoiding the eye area. Leave the preparation for 2-10 minutes, depending on the sensitivity of the skin and reaction to the cocktail, and then rinse with cool water.

Active ingredients: *salicylic acid, lactic acid, citric acid.*

TCA solution 15% (Trichloroacetic Acid 15%)

Trichloroacetic acid Vedara Medical is characterized by high purity, therefore it is safe to use and has a pronounced therapeutic effect. Does not cause systemic toxicity and allergies. After application, this acid is not transported to the capillaries and circulating blood, and therefore is not toxic. TCA evens out skin color, whitens age spots, smooths wrinkles, improves skin tone and elasticity, and reduces senile keratosis.

The combination of TCA with Base intensively stimulates the epidermis without burning it, thereby ensuring its effective regeneration. It helps to eliminate stretch marks or acne scars. Possesses hygroscopic properties, effectively cleansing the skin, and also narrows dilated capillaries. Supports the renewal and regeneration of the dermis by stimulating the activity of fibroblasts.

Benefits:

- reduces wrinkles and skin flaccidity;
- eliminates acne and post-traumatic scars;
- eliminates senile keratosis;
- brightens age spots and evens out skin tone.

How to use: add the required number of drops of trichloroacetic acid to the Base, creating an individual acidic cocktail. Apply the prepared cocktail to your face, avoiding the eye area. Leave the preparation for 2-10 minutes, depending on the sensitivity of the skin, and then rinse with cool water.

Active ingredients: *trichloroacetic acid.*

30 ml / CODE: M006

Anti-Aging Solution 35%, pH 1.9

Vedara Medical Anti-Aging Solution is a unique acid formulation designed to support the treatment of mature skin with photoaging problems requiring strong antioxidant protection. Strengthens the skin's regeneration mechanisms, protects against UV radiation, eliminates dehydration, fine wrinkles and discoloration. In addition, lactic acid deeply moisturizes the skin.

The anti-aging solution stimulates collagen synthesis and accelerates the repair of damaged fibers. After the procedure, the skin regains a healthy glow, becomes hydrated and visibly taut. The product can be used all year round.

Benefits:

- lifting and skin rejuvenation;
- smooths fine wrinkles and prevents the appearance of new ones;
- whitens age spots and evens out skin tone;
- stimulates collagen synthesis.

How to use: apply a suitable amount of the solution with a brush to dry face and neck (avoiding the eye area). Leave the preparation for 2-10 minutes, depending on the sensitivity of the skin and reaction to the preparation, and then rinse with cool water. Can be used singly or by adding (up to 20 drops) to 1 ml of any Base.

Active ingredients: *lactic acid, glycolic acid, phytic acid, citric acid, sodium hydroxide.*

50 ml / CODE: M800

Azelaic acid 13% for rosacea

Azelaic acid serum has been specially developed for problematic and sensitive skin with rosacea, erythema, blood vessels and hyperpigmentation. It is characterized by antibacterial and anti-inflammatory effects and a delicate exfoliating effect. It inhibits the growth of the bacteria *Propionibacterium acnes*, which play an important role in the pathogenesis of acne. Recommended for patients with atopic dermatitis.

Azelaic acid inhibits tyrosinase, has anti-inflammatory and antioxidant properties, reduces erythema, soothes and has antibacterial properties. The serum is very well tolerated by the skin, reaches the dermis, providing an intense depigmenting effect.

Benefits:

- supports the treatment of rosacea and juvenile acne;
- reduces the number of blackheads, tightens pores, has anti-inflammatory and bactericidal properties;
- fights papules, rashes and skin redness problems;
- reduces hyperpigmentation.

How to use: add the required number of drops of azelaic acid to the Base, creating an individual acid cocktail. Apply the prepared cocktail to the face, avoiding the eye area. Leave the preparation for 2-10 minutes, depending on the sensitivity of the skin, and then rinse with cool water. As a monopreparation, it can be applied topically to the inflamed elements of acne.

Active ingredients: *propylene glycol, azelaic acid.*

30 ml / CODE: M804

Phytic acid solution 50%, pH 2.0

Vedara Medical phytic acid is a natural acid extracted from cereals and legumes. Has a unique effect of skin rejuvenation, strong brightening and antioxidant effect, anti-aging effect. Phytic acid is an organic chemical compound with a pleasant, mild stimulating effect. Ideal for sensitive, vascular, dry skin with hyperpigmentation. Phytic acid easily removes dead skin cells by opening pores. It has a cumulative effect ensuring a lasting effect on the skin for up to several weeks in.

Phytic acid is a powerful natural antioxidant that deactivates free radicals generated by the sun's rays. It can also be used in summer as it is a powerful photoprotector! Phytic acid can be used in its pure form, especially on the neck and around the eyes.

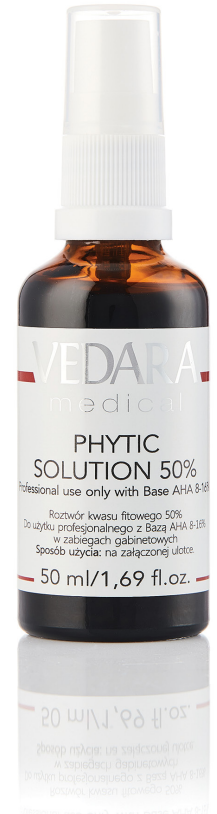

Benefits:

- regulates the secretion of sebum on both dry and oily skin;
- neutralizes free radicals, delays the aging process of the skin;
- prevents discoloration and reduces existing age spots;
- brightens and whitens the skin, increases the elasticity of the epidermis.

How to use: add the required number of drops of phytic acid to the Base, creating an individual acid cocktail. Apply the prepared cocktail to the face, neck and eye area. Leave the preparation for 2-10 minutes, depending on the sensitivity of the skin, and then rinse with cool water. As a monopreparation, it can be used on the entire face and in the area of the lower and upper eyelids, applying a solution of phytic acid with a cotton swab.

Active ingredients: *phytic acid.*

50 ml / CODE: M803

Mandelic acid solution 50%, pH 2.0

Pharmaceutical grade Vedara Medical mandelic acid gradually exfoliates the surface layers of the epidermis. It noticeably improves the condition of gray skin with uneven pigmentation, with signs of photoaging, as well as oily and acne-prone lesions. It works great as an exfoliator for sensitive and vascular skin, as it does not irritate it and does not cause severe redness or burning of the epidermis.

It has a strong antibacterial effect, regulates the sebaceous glands, relieves inflammation and accelerates the healing of acne. It provides immediate skin improvement without a long recovery period. Very actively stimulates the production of collagen in the skin, which increases elasticity. Mandelic acid can be used all year round. The use of pure mandelic acid provides good lifting and smoothing of wrinkles.

Benefits:

- enhances the effect of active substances absorbed by the skin;
- normalizes the work of the sebaceous glands;
- reduces pores and acne inflammation;
- reduces hyperpigmentation and improves skin tone.

How to use: add the required number of drops of mandelic acid to the Base, creating an individual acid cocktail. Apply the prepared cocktail to the face, avoiding the eye area. Leave the preparation for 2-10 minutes, depending on the sensitivity of the skin, and then rinse with cool water.

Active ingredients: *propylene glycol, mandelic acid.*

50 ml / CODE: M802

Anti-Pigmentation Solution 36%, pH 2.5

Concentrate to whiten pigmentation, age spots and even out skin tone. Stimulates and rejuvenates the skin well, evens out irregularities and tightens pores. The concentrate contains arbutin – the main bleaching ingredient of natural origin, which blocks tyrosinase – the enzyme responsible for the appearance of age spots. Arbutin also has an antiseptic effect, removing toxins from the skin, reducing swelling and improving skin turgor.

Niacinamide (vitamin B3) – increases the synthesis of ceramides, slows down the delivery of melanin to the epidermis, promotes collagen production, reduces transepidermal moisture loss, and strengthens the skin's protective barrier. Kojic acid – effectively treats age spots, as a brightening agent and slows down the production of melanin. Citric acid exfoliates the skin, gives the complexion a fresh complexion, removes fine lines, shallow scars and skin discoloration and acts as an antioxidant. Lactic and glycolic acids gently exfoliate the epidermis, moisturize the skin, and reduce wrinkles.

Benefits:

- whitens age spots;
- delays the aging process of the skin;
- actively evens out skin tone;
- increases the elasticity of the epidermis.

How to use: apply a suitable amount of the solution with a brush to dry face and neck (avoiding the eye area). Leave the preparation for 2-10 minutes, depending on the sensitivity of the skin and reaction to the preparation, and then rinse with cool water. Can be used alone or by adding (up to 20 drops) to 1 ml of any base.

Active ingredients: propylene glycol, arbutin, vitamin B3, lactic acid, citric acid, glycolic acid, kojic acid.

50 ml / CODE: M805

Lactobionic acid 40%, pH 2.0

Lactobionic acid is a new generation acid derived from natural lactose and due to its chemical structure belongs to the group of hydroxyl acids called polyhydroxy acids (PHA). These acids have all the properties typical of AHAs. Moreover, as a result of their large molecular size, they have a milder effect without causing the side effects of intense flaking, burning, tingling or redness of the skin.

Vedara Medical's lactobionic acid has pharmaceutical purity, therefore it quickly regenerates the skin after chemotherapy or laser therapy, treats some inflammatory skin diseases such as eczema, rosacea, seborrheic dermatitis, vascular diseases (telangiectasias), has an anti-aging effect and regenerates skin damaged by UV rays.

Benefits:

- against wrinkles – stimulates the production of collagen and elastin fibers by fibroblasts and affects the production of glycosaminoglycans in the dermis;
- strengthens the protective epidermal barrier;
- stimulates collagen synthesis.

How to use: add the required number of drops of lactobionic acid to the Base, creating an individual acid cocktail. Apply the prepared cocktail to the skin. Leave it on for 2-10 minutes, depending on the sensitivity of the skin, and then wash off with cool water. As a monopreparation, it can be applied to the entire face, neck and in the lower and upper eyelids with a cotton swab. Apply to very sensitive, dry, vascular, pathological skin (eg. eczema).

Active ingredients: *lactobionic acid, propylene glycol.*

50 ml / CODE: M810

Anti-Acne Solution 15%, pH 2.0

Vedara Medical Anti-Acne Solution is a treatment cocktail for problematic, mature skin prone to acne, hyperpigmentation, enlarged pores and increased sebum secretion.

Azelaic acid has antibacterial properties that fight 97% aerobic and anaerobic bacteria. Reduces the intensity of the sebaceous glands, reducing the problem of excessive skin shine. Protects the skin from free radicals and prevents inflammation and can be used for sensitive and rosacea-prone skin.

Salicylic acid dissolves the remnants of dead skin cells, acting as an anti-inflammatory agent. It also helps heal red, inflamed pimples and pores. Has a desmolytic and keratolytic effect that helps to exfoliate the skin and cleanse the pores.

Benefits:

- strong therapeutic effect – prevents the worsening of the symptoms of the disease;
- exfoliates dead skin cells, preventing sebaceous orifices from blocking glands and the accumulation of bacteria in them;
- tightens pores and prevents the appearance of blackheads;
- limits the work of the sebaceous glands, reducing sebum secretion.

How to use: apply a suitable amount of the solution with a brush to dry face, neck (avoiding the eye area). Leave the preparation for 2-10 minutes, depending on the sensitivity of the skin and reaction to the preparation, and then rinse with cool water. Can be used singly or by adding (up to 20 drops) to 1 ml of any Base.

Active ingredients: azelaic acid, salicylic acid.

50 ml / CODE: M801

Retinol-peel 4%

A unique new generation peeling with active retinol, which is converted into retinoic acid in the skin. Thanks to this, the peeling action provides a powerful treatment result for the entire spectrum of the main skin problems: anti-aging and dryness, pigmentation, acne and excessive sebum secretion, photo-damage of the skin with visible results in just 1 month.

Unique features of the peeling action:

Molecular and gene level

- increases collagen synthesis;
- suppresses matrix and metalloproteinases (MMP) and reduces collagen degradation;
- stimulates the expression of Ki-67;
- increases the deposition of glycosaminoglycan in the epidermis;
- inhibits tyrosinase activity and melanin content.

Structural and functional level

- improves the organization of collagen and elastin fibers in the papillary dermis;
- improves the structure of the dermo-epidermal junction;
- thickens the epidermis and thickens the stratum corneum;
- inhibits the transfer of melanosomes.

Consumer level

- reduces the appearance of wrinkles and folds;
- increases the firmness and elasticity and smoothness of the skin;
- reduces roughness of the skin;
- reduces photodamage, pigmentation and evens out skin tone.

30 ml / CODE: M888

Method of application: Attention! For the correct application of the peeling, it is necessary to undergo training or follow the exact protocol, taking into account the contraindications. Apply 2 ml of the product to cleansed and prepared skin, bypassing the lips and eye area.

After 20-30 minutes, rinse the peeling with water, apply Aloe Pure Natural Gel and massage into the skin. Complete therapy with an Intensive Regeneration day & night Cream or Retinol Cream 0,3%.

After peeling for 2-3 days, you will feel tightening, dry skin, tingling, redness and other unpleasant sensations may occur. On days 2-3, exfoliation of the surface layer of the skin will begin and will last up to 7-10 days but at the same time, if using the products for home care, the patient can continue to carry on as usual.

Important! It is necessary to use Aloe Pure Natural Gel and any protective cream SPF30-50 from the Vedara Medical line for 3-4 weeks after the in home care therapy, as well as the Intensive Regeneration day & night Cream or Retinol Cream 0,3%.

Active ingredients: *retinol, squalene, lactobionic acid, triglycerides, vitamin E, propylene glycol.*

A bit of science.

After retinol enters the cell by diffusion, it metabolizes to retinoic acid (RA). Abundant retinol is stored as retinyl ester until needed, or it is cleaved by enzymes as polar metabolites (4-OH-RA). Retinol enhances the expression of specific cellular receptors, such as the cell type 2 retinoic acid binding protein (CRABP-2). Retinoic acid is transported from the cytoplasm to the nucleus by CRABP-2. There, retinoic acid binds to the retinoic acid receptor (RAR), which forms a heterodimer with the retinoid X receptor (RXR). This complex acts as a transcription factor in regions called retinoic acid response elements (RARE) and mediates the expression of genes sensitive to RA, such as type I procollagen (COL1), elastin (ELN), glycosaminoglycan (GAG), tyrosinase (TYR) and Protein Ki-67. These terminal biomarkers can be detected using in vitro methods and are implicated in beneficial anti-aging effects.

Serum Vitamin C – VC 10%

15 ml / CODE: M008

30 ml / CODE: M4008

Concentrate Vitamin C – VC 20%

30 ml / CODE: M4009

Vedara Medical concentrated preparations with 10% and 20% vitamin C content have the most innovative formula – ascorbyl tetraisopalmitate – a stable form of vitamin C, soluble in oil. Ascorbyl tetraisopalmitate is most biocompatible with human sebum, penetrating into the deeper layers of the skin, where it turns into the active form of vitamin C.

Vitamin C concentrate, due to its oily consistency, is quickly absorbed into the skin, without leaving a greasy film. Increases skin tone and elasticity, thanks to the action of vitamins C and E. After application, the skin becomes velvety to the touch. Vitamin C is a substrate for collagen synthesis, smooths the skin, reduces the depth of wrinkles and brightens pigmentation. Protects the DNA of skin cells from the harmful effects of ultraviolet rays. Concentrated vitamin C-VC 10% and 20% is perfect for problem skin with acne, does not clog pores, reduces inflammation, does not cause itching and irritation.

Perfectly complements acid and retinol treatments. Promotes healing, soothing and anti-inflammatory effects, and strengthens blood vessels. Ascorbyl tetraisopalmitate is a particularly suitable ingredient for people with sensitive skin who cannot tolerate vitamin C in the form of L-ascorbic acid.

The product is formulated to ensure that it is non-photoactive. Therefore, use in summer does not pose a risk of hyperpigmentation.

Benefits:

- rejuvenating – stimulates collagen synthesis, activates the reproduction of keratinocytes and fibroblasts; increases skin tone and elasticity, is a strong antioxidant complex against free radicals, reduces photoaging processes;
- against acne – prevents the oxidation of sebum, protects against ultraviolet rays, reduces inflammation;
- anti-couperous – prevents the formation of blood vessels, reduces redness, strengthens blood vessels; an extremely effective element in the therapy of hyperpigmentation of various etiologies, normalizes the process of melanin production, brightens and reduces pigmentation, evens out skin tone. It is very effective in lightening even old age spots and age spots;
- restores the lipid membrane, protects the skin from the harmful effects of external factors.

Method of application: Dry skin: use together with hyaluronic concentrate – after absorbing the concentrate, apply a few drops of serum with vitamin C. Oily, mixed skin: apply 1-2 drops to the skin on a cream or under a mask.

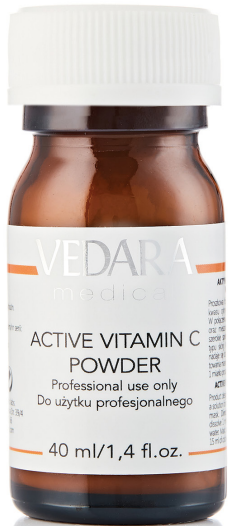

Vitamin C 20% is recommended for professional treatments and 10% for home care. Apply locally on age spots.

Active ingredients: caprylic / capric triglyceride, ascorbyl tetraisopalmitate, tocopheryl acetate.

The oily form of vitamin C is ideal for all skin types, with a particular focus on anti-aging treatments in the early stages of photo- and chrono-aging.

Active Vitamin C Powder with Arbutin

Vedara Medical Active Vitamin C in powder form is a product of the highest quality and purity. Ascorbic acid, citric acid and arbutin are the perfect combination for many uses. It can be added to acid cocktails with Base. The aqueous solution is ideal for cavitation in skincare treatments to prolong the effect of brightening treatments. The aqueous form of vitamin C acts relatively quickly, but is effective mainly on the surface of the skin.

Ascorbic acid acts as an antioxidant, supports collagen synthesis, protects against UV radiation and strengthens the walls of blood vessels, preventing their expansion. It also speeds up wound healing.

Citric acid belongs to the group of alpha hydroxy acids (AHAs), is easily soluble in water, has an exfoliating effect, thereby eliminating tone changes and brightening the skin. Minimizes the harmful effects of UV rays and air pollution on the skin. Supports and improves the action of other hydroxy acids.

Exfoliates and improves skin tone in case of keratosis, pigmentation. Used for oily skin and acne, with anti-aging therapy evens skin tone, as well as smooths wrinkles and fine lines on the skin. Possesses antibacterial properties.

40 ml / CODE: M001

Arbutin – 10% is made from bearberry or lingonberry leaves. Arbutin inhibits the production of melanin, has disinfectant, antibacterial, anti-inflammatory and antioxidant properties. It is one of the most effective natural depigmenting agents. It can be used in the treatment of acne, to prevent changes in skin tone and inflammation. Arbutin is also a natural filter that prevents UV radiation (A, B, C).

Benefits:

- protects the cellular cytoplasm from oxidative stress;
- protects and strengthens the walls of blood vessels;
- reduces the symptoms of acne;
- stimulates the synthesis of collagen I and III.

Method of application: solution for cavitation: prepare a solution of 1:30 (1 spoon of powder for: 30 tablespoons of water) and use for ultrasonic peeling. Brightening mask or mixture of acids: in combination with a base of 1 ml + 0.2 g of active vitamin C powder, mix, apply on face for 2-10 minutes (add up to 20 drops of acids to the cocktail). Radiance mask: Prepare a 1:10 aqueous solution of the preparation, immerse the tissue mask, then squeeze gently and apply on face for 15 minutes.

Active ingredients: *ascorbic acid, citric acid, arbutin.*

Retinol Solution H10 0.5% / Retinol H10 1%

Retinol H10 – hydrogenated retinol, does not cause any complications, is not photosensitive, does not cause allergic reactions, does not cause expansion and growth of capillaries due to a small molecule. Retinol brightens hormonal pigment spots even after photoinsolation. The mechanism of the brightening action both accelerates exfoliation and has a direct action on melanosomes, reducing their number and the amount of pigment in them.

The H10 form of retinol used by Vedara Medical has the ability to rapidly metabolize the skin where it has a strong anti-aging effect. Reduces fine wrinkles, makes the skin more elastic. It changes the structure of the epidermis, tightens pores, smooths the skin. Stabilizes the production of melanin, giving the skin an even, beautiful complexion. Stimulates fibroblasts for collagen production, supports regeneration and exfoliation processes. Moisturizes and tightens the skin. Thanks to its unique form, retinol H10 is highly resistant to light, heat and oxidation, without the risk of irritation or photoactivity.

Retinol Vedara Medical is soluble in plant squalane, giving the product a biomimetic form which is well tolerated by the skin and easy to use. The effect of squalene on the skin is invaluable – in-depth hydration, protection against the adverse effects of the environment, reconstruction of the lipid coat, nutrition, improvement of elasticity, softness and condition of the skin, and many others.

30 ml / CODE: M4005

Benefits:

- prevents the appearance of pigmentation and blood vessels;
- strong anti-aging effect;
- thickens and tightens the skin;
- smooths the structure of the epidermis, tightens pores.

Method of application: for home treatment, apply 1-2 drops of retinol under any Vedara Medical cream. Can be combined with serum with vitamin C 10% and 20% (1 drop of vit C + 1 drop of retinol) for the perfect anti-aging agent. After the acid peeling procedure – as the final step before applying the SPF cream. It can also be used under alginate masks as a serum.

For professional procedures, it is recommended to use retinol 1%, and at home with a concentration of 0.5%.

Active ingredients: squalane, caprylic / capric triglyceride, hydrogenated retinol, tocopheryl acetate, vegetable oil, beta-carotene, ascorbyl palmitate, tocopherol, rosemary officinalis leaf extract.

15 ml / CODE: M005

Bio-Serum AHA 6% anticuperosis and rejuvenation

Bio-serum for home use based on vegetable glycol (from corn) contains the AHA youth cocktail with a strong regenerating, anti-inflammatory and soothing effect for the most demanding skin. The product is intended for sensitive, delicate and couperose skin affected by rosacea and age spots. The bio-serum is quickly absorbed, so it can be used day and night, bringing relief and reducing skin redness.

The content of azelaic acid inhibits tyrosinase, has anti-inflammatory and antioxidant properties, reduces erythema, soothes the skin and has antibacterial properties, which makes it an ideal product in the fight against skin imperfections: acne, hyperpigmentation and aging. The serum is very well tolerated by the skin, reaches the dermis, has an intense depigmenting and anti-aging effect.

Benefits:

- reduces wrinkles and skin irregularities;
- accelerates skin regeneration and cell renewal;
- eliminates capillaries and telangiectasias;
- brightens age spots and shrinks pores.

Method of application: apply 2-3 drops in the morning and/or in the evening separately or under the cream.

Active ingredients: *propanediol, azelaic acid, ferulic acid, kojic acid, phytic acid.*

30 ml / CODE: M114

Regenerating lacto-serum 16%

Lacto-serum based on lactobionic acid – stimulates the production of collagen and elastin fibers by fibroblasts and affects the production of glycosaminoglycans in the dermis, inhibits the action of enzymes in the extracellular space of the epidermis, preventing the formation of wrinkles, telangiectasias and sagging skin, stimulates collagen synthesis, enhances recovery mechanisms, protects against exposure to UV rays.

Lactobionic acid is a new generation acid obtained from natural lactose that quickly regenerates the skin after chemotherapy or laser therapy, treats some inflammatory skin diseases such as eczema, rosacea, seborrheic dermatitis, vascular diseases (telangiectasia), has an anti-aging effect and regenerates sun-damaged skin.

It also exfoliates the superficial layers of the stratum corneum and enhances the functions of the epidermal barrier.

Benefits:

- renews cells and regenerates the skin;
- antioxidant – rejuvenates and brightens age spots;
- anti-wrinkle – stimulates the skin;
- strengthens the protective epidermal barrier.

Method of application: apply 2-3 drops in the morning and/or in the evening separately or under the cream.

Active ingredients: *lactobionic acid, phytic acid, lactic acid, glycolic acid.*

30 ml / CODE: M116

Propolis concentrate for oily & acne skin

An innovative propolis concentrate designed for intensive treatment of acne, inflamed skin, post-acne and various inflammations. Contains a mixture of bio-components with strong bactericidal activity. The unique properties of propolis have been known for thousands of years and have been used by pharmacists to treat inflammation, strengthen the immune system, provide an antifungal effect, and relieve all types of irritation and redness. The product contains extracts of rosemary, myrrh, frankincense and mastic, as well as azelaic acid, which enhance the anti-inflammatory effect, inhibit the growth of bacteria and prevent the oxidation of sebum and the formation of acne.

Propolis concentrate is recommended for use in acne, post-acne, various inflammations, both on its own and under a cream or mask. It has a delicate natural scent and is recommended for use during and after skin cleansing procedures and after chemical peels. Due to its light gel consistency, the preparation is easy to apply to the skin and creates a delicate protective coating.

Benefits:

- cleans and disinfects;
- maintains proper skin hygiene;
- relieves inflammation;
- prevents the appearance of acne.

How to use: apply a small amount of gel to the entire face or to localized inflamed areas on cleansed skin. Recommended for use under SPF day cream or at night.

Active ingredients: *pistacia mastic gum, myrrh resin extract, boswellia serrata resin (frankincense) extract, propolis wax, rosemary leaf extract, barbadensis aloe leaf juice powder.*

75 ml / CODE: M108

Hyaluronic acid concentrate 2%

By using three forms of hyaluronic acid with three different particle sizes, it is possible to create a unique multi-stage product. The smallest molecule penetrates into the deeper layers of the epidermis, the largest creates a moist protective film on the surface. The light, gel-like consistency brings immediate relief. The preparation makes the skin soft and smooth. It contains a complex of soothing ingredients such as wheat germ extract, panthenol, which works synergistically with hyaluronic acid. This complex combines a triple action: soothing, regenerating the surface layers of the skin and moisturizing.

Hyaluronic acid concentrate creates a protective film on the skin that prevents the harmful effects of external factors. The skin is radiant with health and redness is reduced. The concentrate is ideal for use after peeling, laser treatments, microdermabrasion and for home care.

Benefits:

- moisturizes the skin on three levels, soothes;
- reduces and smooths wrinkles, rejuvenates;
- increases the firmness and elasticity of the skin.

Method of application: use as a hydrogenating agent after applying acids (4-6 drops). Can be used under an alginate mask or as a serum under a massage cream. Ideal for home use for all skin types that require hydration and nutrition – 2-3 drops under the cream for the day and at night.

Active ingredients: *sodium hyaluronate, hyaluronic acid, wheat germ extract, Saccharomyces Cerevisiae yeast extract, panthenol, pantolactone.*

30 ml / CODE: M007

Tea Tree Ointment

A specialized ointment with a pronounced therapeutic effect on various types of skin defects. Recommended for the care of problem skin, prone to the appearance of acne of various etiologies, including hormonal. The ointment has an anti-inflammatory effect and also disinfects, soothes irritations and refreshes. The combination of tea tree oil and fir prevents bacterial, fungal and viral infections.

The ointment not only relieves symptoms but also heals the skin. Thanks to its antiseptic, anti-inflammatory and disinfectant properties, it is ideal for treating oily skin with acne. Does not dry the skin. The ointment is also used for fungal and viral skin infections such as cold sores, hard-to-heal wounds, and itchy insect bites. It can also be used after shaving and depilation as a remedy for folliculitis. It provides an immediate feeling of relief, cools and soothes irritations.

The product can be used as a natural deodorant immediately after taking a shower. The ointment can be used after cleansing the skin to complete the procedure. For home care, use as an overnight mask for skin with seborrhea. It is also recommended for topical application on acne, various inflammations and hormonal eruptions on various parts of the face and body.

The preparation is recommended after the skin cleansing treatment, after various treatments for oily and acne-prone skin.

100 ml / CODE: M4112

It can also be used under make-up for oily skin with blemishes for hygienic maintenance. The ointment quickly dissolves and absorbs into the skin, effectively eliminating subcutaneous inflammations, lumps and hormonal changes. It soothes not only blemishes and redness, but also all over the body. The product is recommended for use on cold sores – applying a thick layer overnight as soon as the symptoms of they appear.

Many dermatologists recommend this product to be used as a natural and safe deodorant that quickly eliminates odors for several days.

Benefits:

- has antifungal and bactericidal properties;
- disinfects and accelerates skin healing;
- cleanses the skin and regulates the production of sebum;
- prevents inflammation.

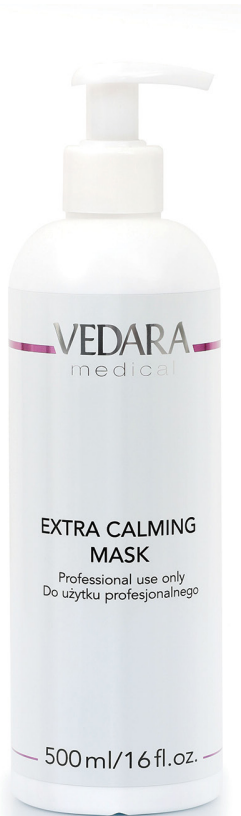

Method of application: for topical use or on large areas of the skin.

Active ingredients: corn starch, zinc oxide, calamine, dicaprylyl ether, caprylic / capric triglyceride, tapioca starch, dipolyhydroxystearate, coco caprylate / caprate, shea butter, beeswax, jojoba seed oil, knotweed extract, teatree leaf oil, magnesium sulfate, zinc stearate, sea water, cardamom extract, siberian fir oil, honeysuckle extract, tocopherol, boswellia serrata resin extract (frankincense), aloe barbadensis leaf juice powder, pistaccia lentiscus gum, honeysuckle powder extract, honeysuckle resin extract.

30 ml / CODE: M112

Extra Calming Mask

A unique cooling gel mask with an instant effect. Ideal for use after intensive, active treatments such as peels, dermabrasion, mesotherapy, laser treatments. Allantoin, panthenol and herbal extracts of chamomile, echinacea, aloe, mallow have anti-inflammatory and soothing effects on blood vessels. The addition of salicylic acid reduces the risk of complications. Thanks to its gel consistency, the mask can be applied in the form of cool compresses, which provide the skin with an incredible feeling of comfort and instantly eliminate erythema and swelling.

The mask is recommended as an SOS preparation with a quick soothing effect in case of strong skin reactions, eliminating redness and irritation on the skin after traumatic procedures (chemical peels and cocktails, laser procedures, dermabrasion).

Benefits:

- soothes irritation and redness of the skin;
- has anti-inflammatory properties;
- eliminates skin puffiness;
- supports the regeneration of the epidermis after peeling and traumatic procedures.

How to use: apply a layer of the mask, cover with a damp cotton compress so that the mask does not dry out, leave on for 15-20 minutes.

Active ingredients: *aloe barbadensis leaf juice, butylene glycol, panthenol, caprylyl glycol, allantoin, echinacea angustifolia extract, chamomile flower extract, salicylic acid, malva sylvestris flower extract, centella asiatica flower extract, green tea leaf extract, sodium hyaluronate, lithospermum erythrorhizon root extract.*

500 ml / CODE: M104

Neutralizer pH 8.5

Indispensable in any beauty salon, as SOS – a double-acting product – a neutralizer to stop the reaction of acids and a soothing mask after active procedures and acids. The preparation contains wheat germ extract, which brightens, smooths the skin, gives it softness and elasticity and nourishes it.

Saccharomyces Cerevisiae yeast extract is a source of all amino acids, mineral salts and vitamins (choline, inositol, folic acid, niacin, pantothenic acid). Normalizes the function of the sebaceous glands, promotes the regeneration of the epidermis.

Hyaluronic acid of three types moisturizes, rejuvenates and improves skin elasticity. It has a regenerating effect, accelerates wound healing, has an anti-inflammatory effect, strengthens the skin's protective barrier and prevents transepidermal water loss.

Benefits:

- interrupts the acid reaction;
- restores the function of the epidermal barrier;
- intensely removes redness and soothes the skin;
- moisturizes and normalizes pH.

Method of application: neutralizer: spray onto the skin from a distance of about 20 cm. After a few minutes, blot with a napkin. Soothing mask: spray onto a cotton mask and apply to the face after an acidic cocktail (if there is slight redness on the skin) for 5-10 minutes, and then remove.

Active ingredients: wheat germ extract, *Saccharomyces Cerevisiae* yeast extract, sodium hyaluronate, panthenol, disodium cocoamphodiacetate, PVP, sodium metabisulfite, pantolactone, phenoxyethanol, sodium, bicarbonate.

200 ml / CODE: M010

Aloe Pure Natural Gel

Active bio-gel for cool hydrogenation (cleansing the skin without steaming) and for a soothing effect on various skin irritations – contains natural hypoallergenic aloe juice, from the “sweet” part of aloe leaves, rich in polysaccharides. The gel intensively moisturizes the skin, soothes irritations and relieves redness. Can be used as a soothing compress or biological peeling for delicate skin.

Ideal as a cool hydration mask for problem skin. As a cooling and moisturizing mask that effectively moisturizes dry skin. Effectively reduces redness, serves as a bio-carrier for masks and creams, and evens out skin tone. The product is recommended for all skin types after acid treatment and invasive procedures.

Benefits:

- anti-inflammatory;
- cool hydration;
- soothes redness of the skin;
- deeply moisturizes, accelerates regeneration.

How to use: apply a thin layer under any treatment cream or masks. When used as a Mask: apply in a thick layer for 10 -15 minutes. Then remove the excess only without rinsing. As a Peeling enhancer: apply a thin layer to all facial areas and leave on for 5-7 minutes, then massage in a circular motion until the epidermal dead cells are removed. Rinse off thoroughly with water.

Active ingredients: *echinacea purpurea extract, aloe barbadensis leaf juice powder, allantoin, honeysuckle extract, phenethyl alcohol.*

75 ml / CODE: M140
200 ml / CODE: M4140

Pure Massage Cream Oil

Multifunctional massage cream based on natural plant oils and aloe vera extract. The unique formula of the cream has a hydrophilic form, which allows it to be emulsified with pure aloe vera gel or combined with Retinol H10, Vitamin C 10-20%, hyaluronic concentrate and azelaine serum, so the product can be used for all skin types.

The cream does not clog the pores, it is completely absorbed after the massage without washing and acts as a nourishing mask for the skin. Once applied to the skin, the product dissolves into oil and has a gentle exfoliating effect on dead skin. Contains biomimetic squalene, jojoba oil, skin-nourishing wheat germ oil, chamomile extract and Dead Sea minerals.

Benefits:

- intensively moisturizes;
- nourishes the skin and promotes regeneration;
- soothes irritations;
- helps exfoliate dead skin cells.

How to use: apply the cream to the face and neck, massage for a few minutes to obtain the consistency of oil. For greater effect, add a few drops of the selected serum, individually tailored to the needs of the skin, or emulsify with hyaluronic acid. Before applying the cream, it is good to exfoliate, which will prevent the product from rolling down the skin.

Active ingredients: *vegetable oil, jojoba seed oil, cetyl palmitate, lanolin alcohol, wheat germ oil, propylene glycol, sea salt, chamomile flower extract, allantoin, tocopherol, perfume (flavoring), beta-sitosterol, squalene, sodium hydroxide, palm glycerides.*

200 ml / CODE: M110

Delicate Cream-Mask ProCALMIN for oily&sensitive skin

Perfect dermocosmetic for seborrheic skin! 2 in 1: cream and mask.

Instantly soothes irritations of oily, combination, seborrheic and very sensitive skin. Contains exclusive, hypoallergenic aloe barbadensis leaf juice, black grape root extract, brown honeysuckle extract, Japanese honeysuckle flowers and tocopherol.

It has bactericidal and bacteriostatic properties and balances the functioning of the sebaceous glands. It soothes redness in the T zone, reduces peeling and itching of the skin on the eyebrows and around the nose. Mask-Cream beautifully mattifies the skin without drying it out.

The preparation is recommended for day and night use as a cream and as a mask, for women and men of all ages, as a moisturizing and sebum-regulating cream, as a makeup cream, and as an anti-inflammatory after-shave cream.

Benefits:

- quickly soothes redness on sensitive skin;
- balances the functioning of the sebaceous glands;
- gently cares for seborrheic skin – soothes itching and irritation;
- moisturizes the skin, preventing dryness.

How to use: use in the salon as a soothing mask after cleansing the skin (10-15 minutes), as a mask for problematic skin or as a cream at the end of the treatment for oily and combination skin.

Active ingredients: caprylic/capric triglyceride, sorbitol, cetyl alcohol, sodium polyacrylate, tocopherol acetate, honeysuckle extract, phenethyl alcohol, tocopherol, Japanese honeysuckle flower extract, aloe barbadensis leaf juice extract, black cognac root extract, brown honeysuckle extract.

200 ml / CODE: M4224

Greens Power Bio-mask with sprouts extracts in-depth nourishment & renewal of the skin

Biomimetic silk-cream mask with a strong nourishing, renewing and regenerating effect for dry, vascular, mixed, enlarged, mature and very sensitive skin. It has a pronounced anti-wrinkle effect thanks to the content of unique plant extracts, phospholipids, sphingolipids, plant squalene and rejuvenating antioxidants.

It contains valuable cress sprout extract, which combines plenty of skin-renewing microelements and youth vitamins. The mask contains carrot extract – beta-carotene, a complex of natural plant oils that deeply nourish and renew the skin. Thanks to the biomimetic formula (similar to the structure of our skin), the mask quickly penetrates the skin, and the effect of renewal, filling and hydration lasts in the skin for up to three days!

Benefits:

- nourishing and moisturizing the skin;
- pronounced anti-aging effect;
- hypoallergenic mask for vascular and very sensitive skin;
- slight skin brightening and lifting effect.

How to use: apply a thick layer for 15-20 minutes, then rinse with water. Apply 1-2 times a week or as needed. In the salon, the mask can be used in banquet and anti-aging treatments, under an alginate mask (after removing the excess).

Active ingredients: *butylene glycol, corn seed meal, octyldodecanol, squalane, shea butter, tapioca starch, myristyl myristate, phenoxyethanol, soy glycine, caprylic/capric triglyceride, caprylol glycol, mallow flower extract, phospholipids, lecithin, sphingolipids, carrot root extract, beta-carotene, cress sprout extract, tocopherol.*

100 ml / CODE: M401

Anti-Acne Astringent Mask with minerals & herbal extracts

A unique mask for local use against pimples, acne and purulent and inflammatory conditions. It has bacteriostatic, antiseptic and anti-inflammatory properties, quickly heals and soothes inflammation, tightens pores and cleanses the skin of impurities. It balances the functioning of the sebaceous glands, has an astringent effect, and actively contributes to the treatment of acne.

It contains a natural antibiotic – bearded tree extract, which has an immediate healing and anti-inflammatory effect. Just a few hours after application, the inflammation is noticeably reduced, calmed and disappears quickly.

Benefits:

- quickly and effectively eliminates pimples and inflammation;
- has an astringent and cleansing effect on the skin;
- antiseptic and anti-inflammatory effect;
- heals the skin and tightens pores after facial cleansing.

How to use: in the salon: apply a thin layer after cleansing the skin or in combination with a delicate ProCALMIN cream-mask – mix 1:1 and apply for 10 minutes, then wash off with water. At home: use for acne and inflammation, also under makeup. Do not wash off.

Active ingredients: kaolin, calamine, lichen extract, myrrh resin extract, propanediol, talc, zinc oxide, magnesium aluminosilicate, Usnea Barbata lichen extract, starch, knotweed extract, phenoxyethanol, butylene glycol, sage leaf extract, honeysuckle extract, sage oil, thyme oil, powdered Aloe Barbados leaf juice, green tea leaf extract, honeysuckle flower extract.

30 ml / CODE: M228
100 ml / CODE: M4228

Anti-Acne Propolis Powder

Dermopreparation based on hypoallergenic propolis extract, which is a natural antibiotic and intended for use in various salon treatments:

- 1) after skin cleansing, the powder quickly and safely absorbs sebum, quickly regenerates the skin after the treatment, maintains skin hygiene for up to three days after the treatment, heals minor injuries and eliminates inflammation.
- 2) the powder is also recommended for use after depilation and epilation to prevent inflammation of hair follicles and ingrown hairs into the skin.
- 3) the preparation can be used on oily skin before applying professional makeup.

The anti-acne powder has a natural composition – extracts from medicinal herbs, natural absorbents and oils, thanks to which its effect on the skin has a pronounced antiseptic, bacteriostatic, healing, astringent and anti-inflammatory effect.

Benefits:

- maintains hygiene after facial cleansing and anti-acne treatments;
- natural sebum absorbent;
- natural antiseptic;
- hypoallergenic propolis.

How to use: after deep skin cleansing, depilation or before applying make-up, gently powder the skin and gently massage until completely absorbed into the skin. Do not rinse.

Active ingredients: *corn seed flour, calamine, kaolin, tapioca starch, cardamom elettaria extract, frankincense resin extract, rosemary leaf extract, propolis wax, myrrh resin extract.*

30 g / CODE: M221

Flower Mask for deep hydration skin

A natural mask for loosening the epidermis before the deep skin cleansing. Suitable for any chosen cleaning method. The mask opens pores very well in a natural and safe way for the skin.

The mask based on hypoallergenic echinacea flower extract, honeysuckle and aloe pulp gently and safely opens pores without warming the epidermis.

Perfect for all skin types – rosacea, oily, acne, allergic, problematic, seborrheic and very sensitive. The mask naturally opens pores and soothes redness on the skin.

Benefits:

- quickly opens pores for skin cleaning;
- for all types of cleansing of face and body skin;
- has a soothing effect on dry and irritated skin;
- works as a biopeeling for vascular and very sensitive skin.

How to use: apply a thin layer of the mask to the skin and cover with cosmetic foil. After 10-15 minutes, remove the foil from individual parts of the skin, remove excess mask from the skin and cleanse the skin.

Active ingredients: *propanediol, echinacea purpurea extract, phenoxyethanol, triethanolamine, honeysuckle flower extract, gum, phenethyl alcohol, honeysuckle extract, lichen extract, hydrogenated castor oil, powdered Aloe Barbados leaf juice.*

200 ml / CODE: M220

EKZO-PEEL EXFOLIATING MASK AHA 16%

The active exfoliating cream mask contains the maximum permitted concentration of AHA, designed for various skin types and sensitivities. The innovative formula balances the highest quality plant oils and softening waxes, protecting the skin against excessive exfoliation and the effects of fruit acids.

The rich composition of the mask contains natural extracts of pineapple, papaya, lemon and orange, which stimulate the skin, rejuvenating antioxidants from berries, extracts of Myrrh, sugar cane and sugar maple, as well as natural fruit acids and precious oils.

Benefits:

- modern skin renewal through professional exfoliation;
- active renewal through in-depth skin stimulation;
- improvement of color by improving proper microcirculation;
- visible brightening and smoothing of the epidermis.

How to use: apply to the face, neck and cleavage, avoiding the eye area. In the case of sensitive skin, after the first application, wash off after 2-3 minutes, if necessary, extend the time with subsequent applications. The use of the product on normal and oily skin can be combined with a light massage to enhance the peeling effect. Use creams with UV filters during the day!

Active ingredients: *lactic acid, caprylic/capric acid triglycerides, glycerin, cetyl alcohol, sodium hydroxide, arachidyl alcohol, jojoba oil, cetearyl glucoside, arachidyl glucoside, benzoic acid, berry extract, dehydroacetic acid, tocopherol, sugar cane extract, beta-sitosterol, pineapple fruit extract, papaya fruit extract, Paullinia Cupana seed extract, orange fruit extract, lemon extract, squalene, sugar maple extract, guaiazulene, sodium phytate, Lithospermum Erythrorhizon root extract.*

200 ml / CODE: M115

Make Up Cream SPF 30

Unique triple action day cream with light consistency. Contains natural mineral pigments that give the skin a natural tone without leaving streaks or an unpleasant mask effect. The combination of chemical and mineral filters provides a broad spectrum of UV protection for the skin, preventing skin tone changes and aging.

In addition, the cream moisturizes and soothes irritations, while the green tea extract and vitamin E contained in the product induce regeneration at the cellular level. The cream has a light and delicate aroma, after application it leaves the skin matte and smooth, which makes it ideal for all skin types. The ideal product for completing any therapeutic and personal care procedure, as well as for home use.

Benefits:

- protects against UVA and UVB radiation;
- masks skin imperfections, evening out its tone;
- has an antioxidant effect;
- nourishes, moisturizes and soothes irritations.

Method of application: apply every 2-3 hours, for 30 minutes, before sun exposure, as well as at least 2 weeks after chemical peels and active procedures.

Active ingredients: titanium dioxide, ethylhexylmethoxycinnamate, diethylamino-hydroxybenzoyl-hexylbenzoate, octocrylene, jojoba seed oil, xylity glucoside, anhydroxylitol, tocopheryl acetate, panthenol, chamomile extract, squalene beta-sitosterol.

75 ml / CODE: M103

Protective Day Cream SPF 50 with highlighter effect

The highest quality sunscreen with a highlighter effect and a broad spectrum of action provides reliable protection against UVA / UVB radiation. The SPF 50 moisturizing and nourishing cream formula contains a specially formulated composition based on powerful moisturizing ingredients, xylitol derivatives, aloe, oat beta-glucan, vitamin E, a stable ester vitamin C and carotene-rich seaweed extract. Suitable for dehydrated and demanding skin.

The cream has an extremely light and non-greasy texture, it is perfectly absorbed without leaving a film on the face. Constant use of the cream rejuvenates and improves the appearance of the skin, reduces pores, improves hydration, regulates the sebaceous glands, reduces wrinkles and prevents their formation. Reduces the risk of sunburn.

Benefits:

- regular use of the cream rejuvenates and improves the appearance of the skin;
- reduces pores, regulates the sebaceous glands;
- highlighter effect;
- reduces wrinkles and prevents their formation.

How to use: apply every morning to cleansed face 30 minutes before direct sun exposure. Outdoors, apply face cream every 2-3 hours.

Active ingredients: *homosalate, titanium dioxide, niacinamide, propolis extract, echinacea purpurea extract, jojoba seed oil, honeysuckle extract, sodium hydroxide, pelargonium oil, honeysuckle flower extract, beta-sitosterol, aloe barbadensis leaf extract, beta dunaliella saltwater extract.*

75 ml / CODE: M109

Replenishing Balm SPF30 for dry, mature skin

A velvety nourishing cream for dry and delicate skin. Dead Sea salts improve the skin's ability to bind water. Aloe Vera leaf juice extract soothes the skin. Vegetable emollient oils – carrot oil and soy phyto-sterols – support the skin's hydro-lipid barrier and contribute to its softness and elasticity.

Vitamin E Beta Carotene – Provitamin A and green tea extract serve as antioxidants, protecting against free radicals and minimizing UV damage. The cream is easily absorbed and does not leave white streaks on the skin.

Benefits:

- nourishes and moisturizes the skin;
- protects against UV radiation;
- relieves redness;
- prevents the appearance of rosacea.

How to use: apply daily to face and neck every 3-4 hours. Reapply after bathing.

Active ingredients: *homosalate, octocrylene, propolis extract, titanium dioxide, diethylamino hydroxybenzoyl hexyl benzoate, propanediol, zinc oxide, sea salt, glycine soybean oil camellia sinensis leaf extract, butylene glycol, caprylhydroxamic acid, honeysuckle flower extract, beta-carotene, carrot root extract, caprylyl glycol, squalene, limonene, linalool, beta-sitosterol.*

50 ml / CODE: M102

Active Night Cream AHA 8%

This active cream contains biocompatible moisturizing factors – hyaluronic acid, lactic acid and glycolic acid, which deeply stimulate and regenerate the skin, moisturize and renew the epidermis, giving the skin a youthful glow. The cream restores the lipid coating of the skin, tightens pores, slows down the aging process, brightens the skin, evening out its color.

Recommended for lightening age spots, for skin in need of strong regeneration, as well as for vascular and oily skin. It has a light and velvety texture. The cream is recommended for use after acidic procedures, to prolong the action of acids, ideal for “smoker’s skin”, for “office worker’s skin”.

Benefits:

- improves cell renewal;
- gives the skin a silky smoothness;
- evens out the color, eliminates imperfections;
- regenerates and nourishes.

How to use: apply a small amount of cream to face, neck and décolleté, avoiding the eye area. The cream may cause a slight tingling sensation due to the active action of acids.

Active ingredients: *glycolic acid, xylitylglucoside, anhydroxylitol, sodium lactate, bilberry fruit extract, sugarcane fruit extract, xylitol, orange fruit extract, lemon extract, sugar maple extract, sodium hyaluronate.*

75 ml / CODE: M106

Calming Cream for oily & acne skin

The cream is ideal for the dermatological treatment of problem skin. Lightweight, fat-free formula enriched with olive oil extract, chamomile and aloe vera to soothe skin. Dermocosmetic contains premium extracts of Japanese honeysuckle, chamomile flowers, bisabolol, squalene, salicylic acid ester.

A special innovative extract from the daffodil bulb has a pronounced soothing effect on delicate combination skin. The natural care system improves the hygienic conditions on the skin surface and evens out the sebaceous glands. After application, the skin becomes calm and matte without drying out.

Benefits:

- moisturizes and nourishes the skin;
- maintains proper skin hygiene;
- relieves inflammation and redness;
- prevents inflammation.

How to use: apply daily to the entire face or T-zone of combination skin.

Active ingredients: caprylic / capric triglyceride, myristyl myristate, potassium cetyl phosphate, glyceryl stearate, glycol palmitate, olive oil, honeysuckle extract, narcissus bulb extract, honeysuckle flower extract, honeysuckle oil, bisabolol, tocopherol, aloe barbadensis leaf juice powder, beta-sitosterol, squalene, benzyl salicylate.

50 ml / CODE: M125

Retinol Night Cream 0.3%

Safe, powerful and versatile anti-aging cream. Protects against collagen degradation and increases the level of collagen in the skin, improves elastin synthesis, increases the thickness of the epidermis. Reduces the content of melanin and enhances the desquamation of keratinocytes. The cream smooths wrinkles and prevents the formation of new ones, actively acts against pigmentation, normalizes the work of the sebaceous glands.

Retinol has a beneficial effect on collagen metabolism by stimulating collagen neosynthesis and decreasing the expression of collagen degrading enzymes (MMP-1). Even a low dose of retinol (0.1%) causes the proliferation of keratinocytes, contributing to the thickening of the epidermis and reducing photodamage to the skin.

Lactobionic acid quickly regenerates the skin, treats some inflammatory diseases such as eczema, rosacea, seborrheic dermatitis, vascular diseases (telangiectasias), has anti-aging effects and regenerates sun-damaged skin damaged.

Benefits:

- visibly reduces the appearance of folds and wrinkles;
- increases skin tone, firmness and elasticity;
- helps to accelerate skin renewal, making it healthier, smoother and more youthful;
- the number of dark spots decreases, the skin becomes smoother.

Method of application: before using the cream, consult a qualified specialist, taking into account all the contraindications! Apply the cream to cleansed skin, bypassing the lips and eyes. **Important!** While using the cream, during the day it is necessary to apply a protective cream SPF 30-50 from the Vedara Medical line.

Active ingredients: *retinol, squalene, lactobionic acid, lactic acid, triglycerides, vitamin E, propylene glycol.*

50 ml / CODE: M880

Sensi-PRO Rosacea Day Cream

A cooling, skin-friendly moisturizer designed for daily soothing care for delicate, fragile skin prone to redness caused by stress. A wealth of botanical moisturizers, such as the protective polysaccharides, premium prickly pear cactus extracts, aloe vera leaf juice and a gel-forming carob seed powder, enrich the skin by increasing its ability to retain moisture.

The cream is quickly absorbed, leaving a pleasant, matte, silky feeling on the skin. The unique herbal composition quickly soothes redness leaving a feeling of comfort and well-being after application to sensitive skin prone to rosacea.

The botanical emollients selected for this day cream are the least susceptible to oxidation, such as meadow and jojoba seed oils. Vitamin E and saline water seaweed – *Dunaliella*, rich in carotene and salt water, further protect the formula from free radical damage.

Benefits:

- quickly soothes redness and discomfort on the skin;
- moisturizes and softens very sensitive skin;
- prolongs youthfulness by protecting against free radical damage.

How to use: apply as a daily moisturizer to cleansed skin.

Active ingredients: caprylic / capric triglyceride, propanediol, potassium cetyl phosphate, jojoba seed oil, squalane, meadowfoam seed oil, prickly pear stem extract, butylene glycol, cocoyl amino acids, sarcosine, potassium aspartate, caprylhydroxamic acid, olive leaf extract, aloe barbardensis leaf juice powder, dunaliella salina extract, tocopherol, beta-sitosterol, squalene, hop extract, locust bean gum, sunflower seed oil, limonene, linalool.

50 ml / CODE: M200

Ultra Light Protection Cream SPF30 for couperose skin

Light cream with a broad spectrum of action for everyday use. The light moisturizing emulsion is easily absorbed into the skin, leaving a feeling of comfort without streaks and white marks. Created for delicate, vascular, allergic and sensitive skin. Perfectly strengthens the walls of blood vessels, relieves burning, tingling and discomfort on the skin.

The formula has been enriched with soothing calendula flower extract and contains antioxidants in the form of vitamin E and Dunaliella salina algae, which provide protection against free radicals when the skin is exposed to sunlight. Gentle mineral ingredients increase the skin's resistance to environmental influences. Myrrh resin and undecylenic acid derivative maintain hygiene on the skin surface and have antifungal properties, which is important for oily and combination skin.

Benefits:

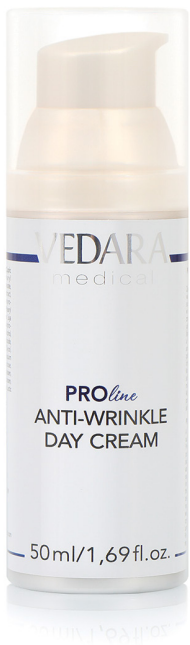

- safe UVA/UVB sun protection;
- light structure without clogging pores;
- thorough soothing of capillaries and skin irritations;
- does not leave white streaks on the skin.

How to use: apply the cream for 15 minutes before going out into the sun. Repeat the application every 2-4 hours.

Active ingredients: ethylhexyl salicylate, octocrylene, glycerin, phenylbenzimidazole sulfonic acid, polyglyceryl-6 distearate, microcrystalline cellulose, Commiphora Myrrha resin extract, jojoba esters, dimethicone, undecylenoyl glycine, sodium hydroxide, cetyl alcohol, beeswax, potassium cetyl phosphate, xanthan gum, sodium cocoyl amino acids, cellulose gum, phenoxyethanol, propylene glycol, honeysuckle extract, Sarcosine, Jojoba oil, honeysuckle flower extract, tocopherol, sodium phytate, ethylhexylglycerin, beta-sitosterol, marigold flower extract, squalane, magnesium aspartate, potassium aspartate, Dunaliella Salina extract, Lipospermum Erythrorhizor root extract.

50 ml / CODE: M201

PROline Anti-wrinkle Day Cream

A phenomenal anti-wrinkle formula suitable for normal, dry and mature skin. A gentle local massage on the wrinkle-prone areas smooths the skin and makes it significantly firmer. The cream contains high quality lipids such as squalane and shea butter, as well as a unique complex that combines the amino acid proline with a palm oil derivative that acts as an intensely smoothing ingredient.

The texture of the cream is very pleasant to the skin, smoothing it with emollient ingredients. Within a week, there will be a visible, clear and lasting improvement in the texture, smoothness and freshness of the skin. The complex of moisturizers based on amino acids gives the skin elasticity and improves its tone "from the inside".

Benefits:

- possesses bactericidal properties;
- accelerates skin healing;
- restores the protective layer on the skin;
- prevents cracking.

How to use: use alone under makeup or day cream. For best results, massage selected areas for 1 minute.

Active ingredients: caprylic / capric triglyceride, squalane, honeysuckle flower extract, shea butter, cetearyl alcohol, arachidyl alcohol, stearyl alcohol, propylene glycol, urea, serine, potassium aspartate, sodium lactate, phenoxyethanol, proline.

50 ml / CODE: M130

PROline Biopeptide Anti-wrinkle Night Cream

The unique formula of an anti-wrinkle cream based on biopeptides for smoothing wrinkles and moisturizing amino acids to give the skin vitality and rejuvenate mature skin.

An active regenerating cream designed to soften and gently exfoliate facial skin in order to accelerate cell renewal. It infuses the skin with an essential moisturizing complex that mimics the skin's own natural moisturizing factor. Overnight application will gradually refresh the skin, leaving it smoother, softer and more hydrated.

Benefits:

- possesses bactericidal properties;
- accelerates skin healing;
- restores the protective layer on the skin;
- prevents cracking.

How to use: apply in the evening after cleansing the skin of the face and neck, bypassing the area around the eyes. Due to the presence of fruit acids, a slight tingling sensation may be felt on first use.

Active ingredients: caprylic/capric triglyceride, jojoba oil, squalane, dicaprylyl ether, glycolic acid, honeysuckle extract, acrylonitic acid extract, aloe barbadensis leaf juice powder, camellia chinese leaf extract, knotweed extract, lactic acid, glycine), linoleic acid, tocopheryl acetate, palm oil, glycine, urea, niacinamide, inositol, hydrolyzed hibiscus extract, benzoic acid, sorbic acid, dehydroacetic acid, acetyl hexapeptide, linalool, limonene, tocopherol.

50 ml / CODE: M131

Intensive Regeneration Day & Night Cream

A unique, thick cream for dry skin, rich in nourishing and regenerating ingredients. Contains amino acids and vegetable oils – squalene, shea, jojoba, bisabolol, safflower. The cream is rich in vitamins which contribute to a youthful appearance – retinol, vitamin E, niacinamide, and antioxidants, as well as the extract of noble seaweed, which strongly moisturizes and soothes the skin. The extract from Japanese honeysuckle deeply renews and regenerates the skin. Smooths fine wrinkles, prevents dryness and relieves redness.

The cream can be used as a facial mask, as well as applied to the area around the eyes. In beauty treatments, it is an ideal product as a beauty mask before an event.

Benefits:

- nourishes and regenerates the skin;
- restores the hydrolipid layer on the skin;
- relieves redness;
- smooths fine wrinkles.

How to use: recommended for day and night use for dry, vascular and very sensitive skin.

Active ingredients: caprylic / capric acid triglyceride, jojoba seed oil, squalane, hectorite, magnesium sulfate, hydrogenated castor oil, sea water, tribechenin, glycine soybean oil, olive oil, bisabolol, honeysuckle extract, tocopheryl acetate, glycine, urea glycine (vitamin B8), dunaliella saltwater extract, honeysuckle flower extract, tocopherol, linoleic acid, cartamus tinctorius oil, palm hexogen, candelilla wax.

50 ml / CODE: M121
200 ml / CODE: M4121

Rescue hand cream

Concentrated hand cream designed to eliminate cracks, dryness and maintain optimal skin softness by creating a thin protective layer on the skin. Urea and mineral-rich knotweed herb extract effectively retain moisture in the skin. Daily use of the cream can prevent cracking as a result of dry skin or frequent contact with water.

The cream is ideal as a preparation for the restoration of the hydro-lipid layer after frequent use of anti-bacterial products, after peeling and whitening procedures, during chemotherapy and other skin-depleting procedures.

Benefits:

- possesses bactericidal properties;
- accelerates skin healing;
- restores the protective layer on the skin;
- prevents cracking.

Method of application: massage into hands until completely absorbed. Repeat after contact with water or as needed.

Active ingredients: urea, stearic acid, knotweed extract, propanediol, salicylic acid, sorbic acid, benzyl alcohol, linalool, limonene, coumarin, geraniol.

100 ml / CODE: M400

Bio Active Eye Cream

A unique cream for the care of the eye area. Restores proper nutrition and hydration to the skin. Relieves puffiness and levels dark circles under the eyes. Contains ingredients similar to those naturally produced by the skin, so it does not cause irritation, and the skin becomes supple and visibly rejuvenated. Contains vitamins of youth: vitamin A, E. Two forms of vitamin A stimulate the skin, restore blood vessels, reduce swelling, and in combination with vitamin E reduce wrinkles. The concentrated formula of the cream protects the delicate skin around the eyes.

The rich complex of vitamins and plant extracts improves the skin around the eyes. The retinol contained in the composition helps to smooth wrinkles. Urea, lactic acid are quality ingredients that increase the effectiveness of the cream. Applied under make-up the cream leaves the skin velvety and smooth. Has a fresh scent.

Benefits:

- brightens bruises, reduces puffiness under the eyes;
- tightens the skin, reduces wrinkles;
- moisturizes, smooths, does not leave a greasy film.

How to use: apply a small amount of cream to the entire area around the eyes. Use in the morning and /or evening. The cream is recommended for protection during exfoliating and very active treatments. Can be used under makeup.

Active ingredients: caprylic/capric triglyceride, jojoba seed oil, beeswax, squalane, sea buckthorn fruit oil, sodium PCA, sodium lactate, niacinamide (vitamin B3), urea, inositol, beta sitosterol, safflower oil, fructose.

30 ml / CODE: M107

Whitening Eye Contour Cream AHA 4%

Bio eye cream with a visible lifting effect and whitening dark circles under the eyes. Contains whitening substances, tranexamic and kojic acid, arbutin from bearberry, vitamin B3, stable vitamin C and vitamin E.

The product contains plant extracts from horse chestnut and cranberry as well as natural, skin-soothing oils from cotton and rice.

The biocream strongly and safely whitens the delicate eye area, improves microcirculation, eliminating swelling and smoothes fine wrinkles, stimulating the skin. After use, the skin is noticeably tight, perfectly illuminated and looks young and radiant.

Benefits:

- whitens dark circles around the eyes;
- lifts and stimulates the skin around the eyes;
- eliminates swelling and reduces eye swelling;
- moisturizes and rebuilds the lipid coat.

How to use: apply a small amount of cream to the eye area, without touching the eyelid. Use in the morning and/or evening.

Active ingredients: *niacinamide, squalane, caprylic/capric triglyceride, propylene glycol, tranexamic acid, ascorbyl tetraiso-palmitate, cottonseed oil, arbutin, glyceryl stearate citrate, kojic acid, tocopheryl acetate, cranberry extract, horse chestnut extract, glycerin, lecithin, sorbate potassium, sodium benzoate.*

30 ml / CODE: M144

Whitening Eye Contour Bio-Serum AHA 9,5%

Bio-Serum intended for people with the problem of dark circles under the eyes, dark dots and spots around the eyes, as well as a tendency to swollen eyes. The preparation strongly and safely whitens the delicate eye area, improves microcirculation by eliminating swelling and smoothes fine wrinkles by stimulating the skin. After the treatment, the skin is significantly lifted, beautifully brightened and looks young and radiant.

The natural ingredients of the product contain the maximum permitted concentrations of active ingredients and vitamins. New generation tranexamic and lactobionic acids provide excellent skin stimulation as well as safe whitening of spots and discolorations.

Benefits:

- strongly whitens dark circles under the eyes;
- whitens spots and discolorations around the eyes;
- actively stimulates and lifts the skin around the eyes.

How to use: pat 1-2 drops of serum into the eye area. Use only under any eye cream from the Vedara Medical line in the morning and/or evening. The dermocosmetic is recommended for protection during exfoliating and very active treatments.

Active ingredients: *propylene glycol, niacinamide, tranexamic acid, lactobionic acid, phytic acid, arbutin, kojic acid, cranberry extract, horse chestnut extract, glycerin, potassium sorbate.*

30 ml / CODE: M142

Bio-Retinol Eye Lifting Serum 1,5%

The serum is intended for people with thin skin with wrinkles and loss of elasticity around the eyes. The strong effect of the preparation ensures excellent skin tightening, lifting and wrinkle smoothing effects after the first treatment. The natural composition of the serum contains the maximum permissible concentrations of active ingredients and vitamins.

New generation acids – tranexamic and lactobionic acid – provide excellent stimulation of the skin, as well as its brightening and elimination of age spots. Bioretinol has anti-wrinkle properties and is hypoallergenic, making it suitable for use on sensitive skin. Peptides smooth wrinkles.

Natural chestnut and cranberry extracts additionally brighten and renew the skin. Noble rice, cotton and plant squalene oils soothe irritations, create a natural protective film on the skin and protect the skin against moisture loss.

Benefits:

- active stimulation of collagen production in the skin;
- safe illumination of the eye area;
- anti-wrinkle and lifting;
- improvement of microcirculation and renewal of the delicate skin around the eyes.

How to use: pat 1-2 drops of bio-serum into the eye area. Use only under any eye cream from the Vedara Medical line in the morning and/or evening. If skin discomfort occurs, the serum should be used every 2-3 days.

Active ingredients: *propylene glycol, niacinamide, squalane, glycerol stearate citrate, glycolic acid, bakuchiol, tranexamic acid, hexapeptide-11, cranberry extract, horse chestnut extract, radish root fermentation filtrate, rice oil, cottonseed oil, vegetable glycerin, tocopheryl acetate.*

30 ml / CODE: M881

Bio-Retinol Anti-Wrinkles Eye Cream

The cream is intended for people with thin skin with wrinkles and loss of elasticity around the eyes. The strong effect of the preparation ensures excellent skin tightening, lifting and wrinkle smoothing effects after the first treatment. The natural composition of the product contains the maximum permissible concentrations of active ingredients and hello.

New generation acids – tranexamic and lactobionic acid – provide excellent stimulation of the skin, as well as its brightening and elimination of age spots. Bioretinol has anti-wrinkle properties and is hypoallergenic, making it suitable for use on sensitive skin.

Peptides smooth wrinkles. Natural chestnut and cranberry extracts additionally brighten and renew the skin. Noble rice and cotton oils and plant squalene soothe irritations, create a natural protective film on the skin and protect the skin against moisture loss.

Benefits:

- anti-wrinkle and lifting;
- active stimulation of collagen production in the skin;
- safe illumination of the eye area;
- improvement of microcirculation and renewal of the delicate skin around the eyes.

How to use: apply a small amount of cream around the eyes, without touching the eyelid. Use in the morning and/or evening.

Active ingredients: *plant squalene, caprylic/capric triglycerides, propylene glycol, lactobionic acid, cottonseed oil, phytic acid, bakuchiol, glycerol stearate citrate, tocopheryl acetate, cranberry extract, horse chestnut extract, vegetable glycerin, sodium hydroxide.*

30 ml / CODE: M882

INTIMATE WHITENING

Intimate Hygiene Mousse

Bio-Muss prepared on the basis of cleansing ingredients of natural origin (without SLS), gently cleanses the skin without drying it out or disturbing its proper hydration.

Additionally, the preparation contains lactic acid and hyaluronic acid concentrate that moisturize the skin, as well as vitamin B3 and panthenol that calm irritation. Horse chestnut and cranberry extracts additionally brighten and stimulate the skin.

Benefits:

- gently cleanses intimate areas;
- maintains the appropriate pH for intimate areas;
- safely brightens the skin thanks to the content of AHA acids;
- moisturizes and soothes the skin.

How to use: apply to intimate areas before whitening treatment, as well as for daily care of intimate areas. Squeeze two doses of mousse and apply to damp skin, massaging gently. Rinse thoroughly with water.

Active ingredients: *glycerin (vegetable), caprylic-caprylic glucoside, lactic acid, niacinamide, hyaluronic acid, panthenol, horse chestnut extract, Saccharomyces Cerevisiae extract, wheat germ extract, cranberry fruit extract, cocamidopropyl betaine (foaming agent), disodium cocoamphodiacetate, potassium sorbate, pantolactone.*

150 ml / CODE: M181

Active Whitening Serum for Intimate Areas

A unique Serum for intensive and safe whitening of intimate and very delicate areas. The new generation preparation contains tranexamic, lactic and glycolic acid, which combined with arbutin and niacinamide provide an excellent whitening formula.

After application, the serum does not cause any discomfort on the skin, and there is no skin irritation or peeling after the treatment. The content of valuable chestnut and acerola extracts additionally nourish, smooth and brighten the skin.

Benefits:

- safely whitens intimate areas;
- works actively without skin peeling after treatment;
- calms down and soothes irritated conditions.

How to use: apply the serum with a thin but covering layer to the selected area – armpits, bikini zone, perianal area, etc. – for 10-15 minutes, then wash off with water. To enhance the effect of the serum, you can cover it with cosmetic foil after applying it to the skin. After the treatment, apply a soothing bio-balm to the intimate areas to deeply moisturize the skin and rebuild its lipid coat.

Active ingredients: *propylene glycol, tranexamic acid, niacinamide, lactic acid, arbutin, glycolic acid, horse chestnut extract, cranberry fruit extract, lecithin, glycerin (vegetable).*

100 ml / CODE: M180

Soothing Balm for Intimate Hygiene

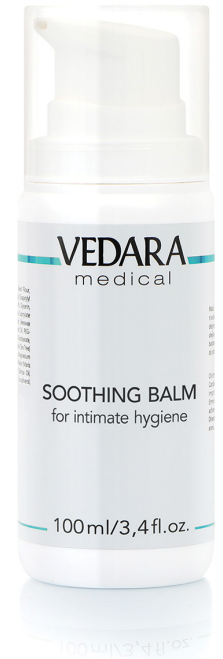

The rich composition of Bio-Balm meets the three most important criteria for proper care after active whitening of the intimate area: Deep hydration is ensured by the content of hyaluronic and lactic acid; Soothing and soothing are provided by noble oils: cottonseed, rice bran, and panthenol; Protection against clothing abrasions is provided by natural plant extracts from horse chestnut and acerola, as well as natural squalene and shea butter.

Benefits:

- strong soothing and calming effect;
- creates a protective coat on the skin;
- deep skin hydration;
- skin brightening and smoothing effect.

How to use: it is recommended to use Bio-Balm for two weeks after the whitening treatment in order to properly moisturize and protect the intimate areas. Apply a small amount of Bio-Balm to the skin and massage gently. Repeat the operation after bathing.

Active ingredients: *glycerin (vegetable), squalane, cottonseed oil, rice oil, caprylic/capric triglycerides, cetearyl alcohol, Shea butter, hyaluronic acid, panthenol, horse chestnut extract, Saccharomyces Cerevisiae extract, wheat germ extract, cranberry fruit extract, lactic acid, phytic acid, tocopheryl acetate.*
